

# Connecting Wood Manufacturers With Government Grants

Tuesday, June 18<sup>th</sup>, 2019

## THE WORKSHOP:

Join BC Wood for a half-day workshop that will help you: find government grants and funding to grow your business; learn about the pertinent trade agreements and how they could affect your access to new markets; find out how to financially secure your orders and leverage your money - risk free; how you can harness the federal government services to not only find new market opportunities, but help you cover your marketing costs; and more!

## THE SPEAKERS:

### Trevor MacKay and Randi Walker - BC Wood

Hear a quick Overview and introduction to the Wood First and Other BC Wood programs

### Janel Quiring, Director, Trade Policy and Negotiations Branch, Ministry of Jobs, Trade and Technology

### Ben Kolisnyk, Senior Manager, Trade Policy and Negotiations Branch, Ministry of Jobs, Trade and Technology

### Take Advantage of Business Opportunities

Canada has a key business and “first mover” advantage as the only country to have free trade agreements (FTAs) with all other countries in the G7—US, UK, France, Germany, Italy and Japan, among others as well. Canada’s recent FTAs offer new business opportunities such as making it less expensive to export, and providing greater business and investment certainty when doing business outside of B.C.

### Stephanie Sang - Granted Consulting

Join Stephanie in an informative and helpful walk-through example of filling out a government grant application.

### Lunch

### Sarah Quigley - Global Affairs Canada

### Your Trade Commissioners - at Your Service

Important topics will include how the CanExport Program can save you money when exploring new market opportunities.

### Vaughn Wright - Business Development Group - Export Development Canada

### Find out how EDC can assist manufacturers and service providers with the expansion of their current relationships and develop additional markets by way of networking, risk management strategies and financing.

We are Canada’s export credit agency. Our job is to support and develop Canada’s export trade by helping Canadian companies respond to international business opportunities. No matter the business, EDC will help companies reach new markets.
